

Monthly Newsletter Cape Fear Astronomical Society Serving Wilmington, NC and Surrounding Areas

Cape Fear Astronomical Society is a tax-exempt organization under Section 501(c)(3) of the Internal Revenue Code.

November 2022

President's Report

by Jon Stewart-Taylor

We had a very nice Club Observing Session at the club observatory, despite less than perfect weather. Karl, Skip, the Tuckers with their new 10" Celestron dob, and I were there as it grew darker. The dew fell fairly early, which frustrated Karl's attempt to take some images. In spite of the dew, we managed to look at the fall globular clusters and other tourist traps. I was impressed with the StarSense attachment and application, turning a normal dob into a push-to scope. With a very brief setup, the software enabled Tom to find first the planets, then deep-

objects.

The observatory is getting a major upgrade. Under Hank's leadership, with assistance from Karl and I, we began the installation of a permanent pier for the club's classic C8. We plan to mount the wedge on the pier, and then the C8 can be mounted very quickly, and already polar aligned. I'm looking forward to investigating what we can do with that setup in place.

At right: The Editor, observing.

October was the first of two nominations months. We've had a nomination for every elected office. Ben Steelman agreed to run for President, Brendan O'Byrne for VP, Jon for AVP, George returning as Secretary, and Bill Cooper as Treasurer. Many thanks to those agreeing to run: without the officers the club could not function.

We are still looking for a potential host for our Holiday Celebration/Yearly Meeting. Traditionally, members bring dishes to share, then we hold the annual election. The meeting finishes off with a look forward and backward, then continued celebrating. If you'd be interested in hosting, please let us know.

Calendar

November 2022

Date - Event - Time

- 01 First Quarter Moon; 06:38 UTC
- 06 Daylight Savings Ends; Fall Back; 01:00
- 08 Total Lunar Eclipse; 06:00 UTC; 11:00:00 AM UTC Total Eclipse of Moon (Umbra starts ~4:10 AM Karl)
- 08 Full Moon; 11:02 UTC
- 09 Uranus at Opposition; 08:00 UTC

13 ★ Cape Fear Astro Monthly Meeting ★

CFAS Monthly Meeting - 7:00pm – 9:00pm 212 DeLoach Hall; UNCW Also simulcast via Zoom

- 16 Last Quarter Moon; 13:28 UTC
- 17 Leonid Meteors; 18:00 UTC; ZHR 10; Moon one day past last quarter
- 18 Club Observing @ Starfields (the Club Observatory); 6:00 PM; 3rd Quarter Moon
- 19 Club Observing @ Starfields (the Club Observatory); 6:00 PM; 3rd Quarter Moon
- 23 New Moon: 06:56 UTC
- Club Observing @ Starfields (the Club Observatory);5:30 PM; New Moon
- 26 Club Observing @ Starfields (the Club Observatory);5:30 PM; New Moon
- 30 Mars closest to earth; disc 17 arcsec
- 30 First Quarter Moon; 14:37 UTC

Next Meeting Presentation

Jon Stewart-Taylor will present a program on the ESA/NASA Solar Orbiter, including its mission, launch, and science.

2022 Public Events

There are no more Public Events this year.

Thank You! To all who participated!

Special Interest Groups (SIGs)

<u>Usual</u> meeting dates – watch emails for exceptions

Phenomena: First Wednesday
Both Eyes: Second Tuesday
Telescope Usage: Third Tuesday
New Astronomer: Third Wednesday

Outreach: Fourth Tuesday

2 Items For Sale

by Steve Hilliard

17mm Nagler Eyepiece

I have a Televue 17mm Nagler Type 4 to sell. I haven't used it much the last 2 years so I am parting with it. Glass is in great shape, and the body is too. A couple of small marks on the barrel, the biggest is shown in the picture. Comes with original box and pupil guide also. \$295

Orion Padded Telescope Case 47x14x14 very good condition \$50

Associate Vice Presidential Ramblings

by Karl Adlon

"Presidential Ramblings" was the first article in "The Meridian", the newsletter of the Quad Cities Astronomical Society based in Davenport, Iowa. Seems like a good title here.

"What's past is prologue" is a quotation by William Shakespeare from his play The Tempest.

I started off observing with a 3" f10 Newtonian I received for Christmas when I was in my early teens. Then I got into clubs, club activities, presentations, elected Board positions, newsletter editors, etc. Now, I really just want to get my telescope out under the stars. I'll even use Public Events as an excuse to do that.

Friday night I was at our observing field with 4 others. I started up my G11 and told it to use Alberio for the first alignment star and go to it. It started moving in the wrong direction and stop when it was pointed a little bit below the horizon. Confused I looked at the settings.

The scope uses Universal time. It showed the following day which I thought was okay for Universal time. Then I checked the app on my phone for Universal time and I saw it was way off maybe 8 or 10 hours.

And I remembered I had set a fictitious time after a circuit failure was repaired and I wanted to see that it worked.

So if you use a fictitious time for any reason. Be sure to set is back to actual time!!

Oh, and by the time I got everything straighten out, clouds rolled it! It was an early night.

Get to Know YOUR Astronomical League

The Astronomical League (Astroleague or AL) is one of the largest amateur astronomical organizations in the world. The organization serves to encourage an interest in astronomy (especially amateur astronomy) and promote the science of astronomy by:

- √ fostering astronomical education;
- ✓ providing incentives for astronomical observation and research;
- ✓ assisting communication among amateur astronomical societies.

CFAS is one of over 300 member societies affiliated with the Astroleague. Your membership in CFAS allows you take full advantage of this relationship so periodically review the information below to see how the Astroleague can support your astronomical interests and endeavors.

AL News Bites and Reminders	What is What's Up Doc? Created by Aaron Clevenson (one of the AL National Observing Program Coordinators), What's Up Doc? is a monthly tool designed to help Astronomical League members manage their progress with the AL Observing Programs.
Reminders	If you've provided a mailing address to CFAS, please remember that your quarterly <i>Reflector</i> magazine will arrive via US Mail unless you specify the digital/email version.

The Astroleague Correspondent (or ALCor) is your link between CFAS and the Astroleague. Don't hesitate to contact your ALCor if you need assistance with anything Astroleague related whether its general information or detailed coordination of observing program completions for certification. Check back here each month to see any new links, postings or reminders.
